

# Abraham Lincoln Independent Studies School, Vision:

---

Abraham Lincoln, Independent Studies School, is a primarily virtual program that serves Marysville Unified School District students in grades 1-12. Abraham Lincoln provides quality, grade level instruction to students who have identified needs that make it difficult for them to participate in or experience success at a comprehensive site. Our students develop socially and academically in our flexible and family orientated atmosphere. Students have many opportunities to attend in-person enrichment classes or meet with their teachers individually or in small groups. Abraham Lincoln School, provides meaningful experiences that support and guide all our learners so they can be successful in their individual, post secondary paths. Our mission is to create competent and confident lifelong learners, who are engaged, responsible, creative and productive in an ever-changing world.

## Character

- Attend all required meetings on site & on-line
